EDUCATION

Bachelor of Computer Science & Engineering (CSE)

Green University Of Bangladesh
Last Semester GPA: 3.33/4.00 (Ongoing)
2019 - 2024

Higher Secondary Certificate

Govt. Shah Sultan College, Bogura.

GPA: 4.5/5.00
2017 - 2019

Secondary School Certificate

Bogra Zilla School, Bogura
GPA: 5.00/5.00
2009 - 2017

COURSE

- Complete web development by **Programming Hero**

INTERPERSONAL SKILL

- Communication
- Problem Solving
- Adaptability
- Working Under Pressure
- Team Player
- Self-confident

Shimul Mahmud Rumel
Software Developer

OBJECTIVE

An aspiring Software Engineer passionate about web development and determined to excel as a skilled programmer. Seeking a challenging position to apply programming skills and technical knowledge in developing top-notch software solutions. Dedicated to ongoing learning and enhancement for excellence in software development.

TECHNICAL SKILL

Programming Language :	JavaScript, python, C++, C.
Web Programming :	React.js, node.js, JS(ES6), AJAX, DOM, API, HTML5, CSS3, TypeScript.
Databases :	MySQL, ORACLE SQL, MongoDB, Firebase.
Frameworks :	React, tailwindcss, Angular, Next.js, Vue.js, daisyUI, Native UI, npm, Redux, Material-UI.
Tools :	Github, Figma, VS Code, Vercel, Node, Vite, Recharts, Eclipse, OverLeaf, MS Office, Component Library, Trello.

PROJECTS

Book Vibe. (An online book reading website where user can read, track history and maintain wishlist) Implemented registration, login with firebase authentication system and integrated API system.
Technology: React, tailwindCSS, JSX, git, Component Library, node, Firebase.

SM Ticket. (An online ticket reservation system) developed ticket reservation system with seat booking, Conditional coupon enabling.
Technology: HTML, tailwindCSS, JS, node, git.

The Dragon News. (An online news portal) Utilized React Router for smooth navigation, dynamic API integration for real-time updates, and Firebase authentication for enhanced security and user-centric design.
Technology: HTML, tailwindCSS, React, JS, node, Firebase, Component Library, git.

Thesis on Weighted Graph Mining (WeGM). (An algorithm that mines frequent subgraph with edge weight from graph dataset) Improved mother gSpan algorithm along with weighted graph mining for frequent subgraph.
Technology: Python, Google colab, DFS, PubChem, Kaggle, Jupiter Notebook, git.

WORK EXPERIENCE

Intern   Oct 2023 - Feb 2024

ReformedTech | Shyamoli, Dhaka

During my time as an SQA Intern at ReformedTech, I had a significant impact on software testing. My responsibilities included test planning, execution, and reporting of any identified bugs or issues. This opportunity greatly enhanced my quality assurance skills in a professional software development setting.
